MOVING DAY

At Francis Moving Co., our mission is simple. With honest and hardworking movers, we take every measure to ensure that each of our customers is satisfied with our moving job. This is why we comprised a list of tips to ensure your move goes as smoothly as possible.

- Make sure all small items are packed in appropriate sized boxes (boxes are only rated for certain weight)
- Ensure that all boxes are labeled both on top and on the sides of the box to ensure they arrive in the proper rooms.
- If mattress bags are needed for your move, please request them with the proper size prior to the move day.
- Drain gas and oil from lawn mowers, chain saws, snow blowers, gas grills and kerosene heaters.
- Defrost and clean your fridge and freezer at least a day before the move.
- Wait 3 hours before turning on your fridge or freezer to let the freezer settle.
- Make sure that your elevator reservation times coincide with your moving time. If your elevator time is restricted, consider reserving additional helpers to speed up the move.
- Make sure you have the van driver's name and contact information, and give him contact numbers at the destination. Confirm directions to your new home with your driver.
- Remove snow and ice from sidewalks, driveways and steps.
- Keep your telephone connected throughout your moving day. Please ensure that we have a mobile number to contact you on.
- To prevent possible damage, television sets, other electronic equipment and major appliances should not be used before they have a chance to adjust to room temperature.
- Clean out your closets, cupboards, toy chests, shelves, attic, garage and basement. It is a good idea to discard anything you

do not want or need. A rule of thumb is if you did not use something in the last year or two, chances are you do not really need it.

- If you are planning to make several drop-offs, ensure the lead hand is aware so that furniture and boxes are packed accordingly.
- Decide which plants will come with you and which will stay behind and secure soil in potted plants by wrapping the base in plastic or garbage bags to prevent spills.
- Give a last minute check to every room and closet before the van leaves. Make sure the water, furnace and air conditioner are shut off, windows are shut and locked, and the lights are switched off.
- Inspect moving van to ensure nothing is left behind after the move is complete and sign release form.

INSURANCE

- \$50,000 coverage total.
- \$100 deductible by the customer if there are any claims.
- Up to a maximum of \$400 per piece.
- Insurance coverage includes furniture and electronics for physical damage only.
- Contents packed into boxes are only insured if packed and unpacked by our staff.

Payment can be made after the move has been completed by Visa Mastercard or cash.
